

# A Corporation is a Person. Really?

The astonishing  
history behind the  
*Citizens United*  
ruling.

As we have already observed with the recent million dollar negative advertising campaigns being waged in Iowa, New Hampshire and other states with primaries, the Citizens United ruling has unleashed a flood of money being spent by corporations and PACs to influence our elections. This ruling affects every issue True Blue Women supports, so it is important that we understand its ramifications and how we can fight against it.

Please join us! Wednesday, January 25  
6:30 p.m., Asbury United Methodist Church

Mary Lindsay, an activist since she learned about corporate personhood in 2003, will give us the facts about the Citizens United ruling and the anti-democratic rise of corporate dominance in America.

This is the first of our meetings focusing on this crucial election year. You will surely come away from this meeting educated and ready to advocate! We're looking forward to a well-attended, informative and interesting meeting. Please feel free to bring your friends who might be interested.
